

# **Supermarket Profits: "How to Let the Supermarket Coupons PAY for Your Groceries Each Week!"**

**Without Clipping Coupons**

**A Unique Report  
From  
Make Money Alert .com**

This report is not about saving money when YOU clip coupons or a delivery service. It is not about anything you have heard of before. It is about Making Money every time someone Saves by clipping a coupon.

We all get those flyers for the supermarket specials in our Sunday paper each week. We look over the ads to see if we can save some money on the weekly food bill, only to find, that there are about ten specials for each store in the area.

To save on all the products on special we will have to go to 5 or 8 different stores. Most of these stores are strange to us and we do not know the layout so it will take us a lot longer to do the shopping. This time is more important than the saving we will realize so we continue to

special at other stores.

Also when we go to a different store than the one(s) we are familiar with we wind up spending more because we have to wander each aisle to find the specials. This leads to impulse buying and we wind up saving very little if anything!

The stores know this and that is why they put out coupons and specials, even if they lose money on the specials, they know you will also buy more expensive and profitable items while you are in the store.

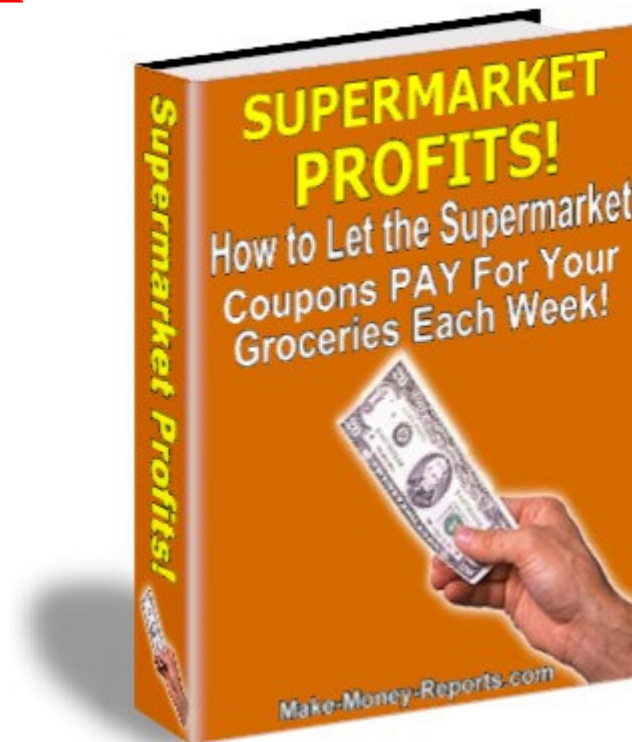

But what if you could go to any supermarket in your area, walk in, go directly to the specials, and then to the checkout with your specials and coupons? How about if OTHER people go to these stores and you make money every time they do.

People that use coupons in only their regular grocery store have been known to save between 30-40% on a regular basis off their groceries. If they could use their coupons on only the specials and loss leaders, they could almost, if not always, get these items for free!

Now this report is NOT about you coupon clipping or even about you saving on your own groceries! It is about how you can make an extra \$200-300+ each week using this simple system AND be able to save on your own food bill!

**I had a neighbor that ran this business, after I showed her how, and she made over \$200.00 a week and got all of her groceries paid for by other shoppers.**

# Introducing "Supermarket Profits!"

## Here is what is in the "Supermarket Profits" Special Report:

- The 5-Basic Steps to Start Your Own Supermarket Profits within the next 7 Days!
- Exactly How to Utilize the power of the Internet to save You from Wasting Hours of Your Time!
- 2 FREE "Secret" Links, with Techniques, to Uncover any hidden data for grocery stores in Your Local Area!
