

“Broken Links Cash Flow System”

**How Would You Like to Make
\$50 to \$150 for Every Search You Do?**

If you are like me you do a number of searches on the Internet on different subjects each week. Heck I do about a hundred searches a day. Why not get paid for these searches? In fact if you follow my instructions I will guarantee you can make from \$50 to \$150 each time you are doing the same searches as you are now. **Please read on.....**

I just love to take ideas from one place, add to them, and then use them in a different way. Here is an example.

I read about a guy that would find broken links on websites. He then would send a sample to the owner and let him know that he can get a report of all the broken links for \$5. **Now maybe you have heard of this or maybe you have not. Either way please read on because I have found a way to make this Very profitable by using a few twists and turns.**

You can make money while you are doing any search that you would normally do with some software that does most of the work for you.

Now this has been around a long time because I saw this idea at least 3 years ago. The idea is to find broken links and let the website owner know about them and charge for the report. You do this with a free software program and send the owner an email. I will get into the software in the step-by-step instructions that follow, but for now, let me tell you the software is free and fast.

It works because broken links mean less sales and no businessperson wants to lose money. And to find these links takes time for the owner that they would rather spend on marketing instead of hunting for all these broken links. It is more than worth the \$5 to have all the links emailed to him to be fixed.

I don't know if you want to spend 15 or 20 minutes to make \$5 BUT.....

What I do know is that with a twist and turn this can be very profitable

for very little work at your home computer and with NO investment of money to run it. To the tune of \$50 to \$150 for about the same amount of time.

The big businesses have staff people that take care of this problem. But there are many one-person businesses that have grown over the years to hundreds if not thousands of pages. They would appreciate this help. That is where you come in.

To make this type of business the most profitable you have to do a number of things. You have to find the websites that want and need your service the most. You have to send them an email selling them on your idea. You have to charge a reasonable fee. You have to have a way to get paid. And you have to do all this in the least amount of time to make it profitable. Wow, that a lot to ask for.

But of course, by now, you know I have worked it out, right ☺ Let's first take a look at the way it has been done in the past and keep the good parts and find new ways to make the problem parts go away.

All the articles I have read on this business idea have told you the following.

- Find websites with broken links.
- Use link software to find the broken links.
- Make up and send an email to the owners with a sample of the broken links.
- Ask the owner to Paypal you the money for the complete report.
- Find some more websites and do it all over again.

See any problems? Let's start with the first item listed.

- Find websites with broken links.

Question? How do you find these websites? They don't tell you that. You just have to do a search for websites and look at each one with the link software until you find broken links. You are just picking website randomly and they may need your service or not.

Answer: I will show you a way to find the websites that need your service the most all in one place. You will still have to search each website for broken links but with the software it takes very little time. And this can be done while you are doing other things.

- Use link software to find the broken links.

Question? What software do you use?

Answer: Here the old way is the best. They mention the certain software and I found it to be the BEST. It is the best but you have to know how to use it to get the most out of it. I will show you how in the step-by-step instructions.

- Make up and send an email to the owners with a sample of the broken links.

Question? What do you put in the email? How do you word the email to make the most sales of your service?

Answer: I will give you an email template that uses a trick that will get the most response and make the website owners to trust you so they pay your fee.

- Ask the owner to Paypal you the money for the complete report.

Question? Why would they trust you, (who they do not know), and just Paypal you some money without knowing they will get the report promised or if the report will help them find the broken links?

Answer: Give them the full report in the email you send. Let them have it right in their hot little hands, but they cannot use it until they send the \$10 dollars. They have the report in their possession so there is no need to trust you to send it they already have it.

- Find some more websites and do it all over again.

Question? Do you want a business or a one shot deal? If you have to keep finding new websites to sell to you will spend most of your time spinning your wheels.

Answer: Put each website owner on a weekly or monthly contract. This way you have a recurring weekly and monthly income. Find them once and get paid forever.

There you go, all the problems with the old way solved and your new system is a full or part-time **business**.

Let's get started with the step-by-step instructions.

Does this sound like the ideal business for you? Work from home, No manual labor, do it on your time schedule, and have a recurring monthly income.

You can run this business in your pajamas or in the middle of the night. Your time is your time. You can build it to as big as you want or keep it small and part-time. And without a big investment. All you need is my report with the step-by-step instructions and you are ready to go.

You will be up and running in your new business the minute you finish reading my quick and easy report. And I will guarantee you can make \$50 to \$150 a day part-time and much more full time.

Here's is what you get. A complete business in a box.

- My step-by-step, walk-you-thru easy to understand instructions
- The secret to find the right websites in one place.
- The link to the software needed. It's FREE
- Instructions on how to use the software the best way.
- An email template to send to your prospects.
- The secret to getting paid.
- How to set up your customers on a weekly or monthly plan.

- Instructions on what forms to use to make it quick, easy and profitable.
- Your money returned if you do not make at least \$50 to \$150 a day with this program.

You an early bird? See special below.

What do you think you will have to invest for a complete ready to run business like this? \$200, \$100, \$67 dollars? **NO, NO, NO**, not if you act NOW. I am going to set the pre-launch special price at \$47.00. **If you act Now. You see I don't want this to be used by too many people. Why? Because I use this myself right now and do not want a lot of competition!!!**

I will keep the price at this \$47 until I meet my limit. If I reach that limit at that price then the program will be pulled from the market. If not then the price will be raised to \$97 until I reach the limit.

So SAVE over 50% right now if you act fast. The complete ready to go business for an investment of \$47.00. **Get Yours Now, Click Below.**
